Dear Mr. Shepherd:

On February 23, 1990 a member of my staff accompanied by Mr. Carl Dixon of Atlas Minerals Corporation, inspected the reclamation of the Cactus Rat Mine.

Inspection was made for the surface reclamation. The inspector was not present when the reclamation was performed. Four subsidence areas and the reseeding of 17 acres were inspected. Each of the four subsidence areas were filled in and the area satisfactorily seeded.

Based on the above findings, I recommend Atlas Minerals Corporation be released by Utah Division of Oil, Gas, and Mining (DOGM) from the reclamation contract.

Should you have questions please call Sal Venticinque of my staff at (801) 259-8193.

Sincerely yours,

*Kenneth V. Rhea*
